SKILLS

- Python | Machine Learning (Reinforcement Learning)
- Python | Django
- HTML & CSS
- Linux
- C

AWARDS AND ACHIEVEMENTS

- VPAA Lister | 1st Semester 2021-2022 | GPA: 1.43
- 1st Place | CCIS Days 2022 Programming Contest | Caraga State University

CERTIFICATIONS

- Career Service Professional Eligibility | Passed with 85.62%

SUMMARY

Computer Science graduate who is passionate about software development and machine learning . Highly analytical, motivated and skilled at solving programming problems. Can work well both independently and in a team.

EDUCATION

BS Computer Science

Caraga State University, Butuan City   Aug 2018 - Jul 2022

**Completed 96 Credits Towards
BS Agricultural Engineering**

Caraga State University, Butuan City   Jan 2017 - May 2018
Mindanao State University, Marawi City   Aug 2015 - May 2016

Secondary Education

Agusan National High School, Butuan City   2011-2015

PROJECTS

Reinforcement Learning-Based Unmanned Ground Vehicle Simulation for Cacao Pod Collection
Thesis
Research to make improvements on the cacao harvesting process by utilizing Unmanned Ground Vehicles and Machine Learning. Created using the robot simulation software Webots and Python.

RightPrice
An e-commerce website with search, user registration, user upload and cart functions. Built using Django, files hosted on AWS S3 Buckets and deployed to Heroku.
